Please rate the overall performance of this Recitation Instructor: Excellent

Please comment on the technical aspects of the RI's teaching performance.

The RI’s speech was clear and easy to follow. She used a drawing tablet, and her handwriting was neat and legible. She was well prepared for the workshop.

Please comment on the mathematical content of the RI's teaching performance.

The RI's presentation was well-organized and clear. She started by reviewing key ideas and formulas, which helped students ease into the mindset needed to tackle the workshop problems. She presented the material at an appropriate level. One of the workshop problems involved a formula that had not yet been covered in lecture, and she did a great job explaining it to the students, who were then able to use it to solve the problem.

Please comment on the engagement of the students.

The students were highly engaged and actively participated by asking questions. The RI interacted with them individually, answered questions effectively, and encouraged broader conceptual discussions beyond the assigned problems. She maintained a highly interactive classroom environment.

If the class was face to face, what techniques were used to elicit student-student interaction and how well did they work?

The students were encouraged to engage in small group discussions, which proved effective in keeping them actively involved and participating.

Please evaluate the assistance of the RI in grading and constructing exams and quizzes, and in following course policies.

The RI follows the course policies closely. I cannot comment on grading, as no exams have been graded yet, and quizzes are not used in the recitation.

Were the Learning Assistants (LA's) involved in the teaching? If so, please comment on the effectiveness of the way they were used.

Would you recommend that this RI be assigned to teach his/her own course? Please comment:

I would recommend the RI to teach her own course. She is highly committed to her students and takes her teaching responsibilities seriously.
