What do you like most about this course?

Comments
This course is something manageable considering all the other classes that I need to take compared to this one
I like the pace we are going so far into the course and the professor does a good job teaching this course as well.
i like that the solutions of quizzes and group works are being posted so we are able to learn what we did wrong.
The professor and the curriculum.
The organized formation of notes
The professor was able to have proper forms of teaching for the class, and made it easy for us to understand each course we looked into.
Classwork at the start, a quick review, and then an assignment to see if we retained the information we learned today with some practice.

What do you think needs improvement and how should these improvements be made?

Comments
Honestly from me nothing really needs improvement right now as far as I can think of
N/A
The curriculum could go a bit faster in the beginning and allocate more time for exam review.

Just have a reminder to know when our homework is due, because I keep forgetting when it is due.
So far, everything is working out very well.
