organized notes
Many materials are provided for students to be able to succeed in the class. Complete notes, worksheets with detailed answers, and sets of practice problems for each exam made it easy to study and prepare outside of class time.
The structure of the course was great.
The course is very straight forward and everything that is previously learned is applied to the next topic.

If you were teaching this course, what would you do differently?

I would put breaks in between, because it's hard to focus for 2 hours straight. So even a 5 minute break in between would be really effective for the students learning.

In what ways, if any, has this course or the instructor Alison Bu encouraged your intellectual growth and progress?

These comments are unique to the instructor Alison Bu.

Comments
always provides tips and ways to improve
She always encouraged participation and asked us lots of questions for students to answer. Also, the worksheets she made were highly effective in my studying.
Aj has always answered everyone's questions during class and has provided study materials that she had made herself as well for our midterms. She has always tried to be fair towards everyone especially when grading quizzes or changing due dates for homework so that we are able to focus on the mid terms. Her teaching style and charisma has made this class so much easier despite this being a hard class even with the accelerated rate we are going at since this is a summer class.
